

**Part # AIOK** **Novattach starter kit.**  
 This kit contains all the Novattach parts to mount any dome camera with a female threaded pendant kit from Unistrut or trusses. All you need to do is add 1.25" steel EMT or (1.5" OD aluminum pipe). Pipe available from Novattach or your own sources. If you don't have a pendant cap, try or pendant cap replacement adaptor listed below. Likewise, if you need to mount to a flat overhead surface just add our ceiling plate adaptor. We also have data rack adaptors and box camera adaptors. See our products page for info.  
**Colour - White (AIOK-W), Black (AIOK-B) or plain metal (AIOK-M)**

**Part # PMA** **Pendant Mount Adaptor**  
 When you don't have a pendant kit available for your dome camera, try the Novattach PMA. Attaches to the bottom of the Novattach bracket with locking ring supplied.  
 Material is zinc plated steel. Colour is silver.  
 Fits most dome cameras and negates the need for unsightly electrical boxes at the bottom of your Novattach pendant poles when your camera model doesn't have a pendant cap.

**Part # CM01** **Ceiling Plate Adaptor**  
 When mounting to a solid overhead surface such as concrete, wood, architectural cladding or steel our ceiling plate attaches with 4 fasteners / bolts (not included). The Novattach mounting system then spins right onto the plate. Available in low profile or higher clearance versions depending upon the conduit type and cabling you are running.  
**Part # CM01 - 0.5" clearance under plate to run cables**  
**Part # CM02 - 1" clearance for running 0.75" conduit**

**Part # DRA** **Data Rack Adapter**  
 Mounting cameras, wireless access points or other hardware devices to data racks is now fast and easy with the Novattach DRA. Using the standard Novattach mounting system, just add this adaptor to the top of the unit.  
 This adaptor hooks onto the cable racking and clamps to the Novattach unit. There are no sharp edges and all materials are made of corrosion resistant metals.  
**Colour - silver.**

**Part # EBA** **Electrical Box Adapter**  
 This accessory allows Novattach to be installed on a standard 4" X 4" Electrical Box. If your project requires that all cable is hidden inside EMT electrical conduit, you can use Novattach to suspend from the boxes with ease.  
**Colour - silver.**  
**Material - 1/8" Aluminum Plate w/steel stud**

**Part # FCTA01M** **Box Camera Adaptor**  
 Just attach our tilt / swivel adaptor to the base of the Novattach mounting system with the locking ring supplied and you can mount any box camera with or without housing to the Novattach units.  
**Colour - silver**  
**Material - zinc coated steel**

**Part # LTA** **Large Threaded Adaptor**  
 If using a pendant cap kit with a male thread, this adaptor marries up the Novattach mount to the pendant cap. Fast & easy, just spin onto the bottom of the Novattach then attach your camera and pendant cap.  
 Used on cameras with pendant caps that have a 1.5" male thread on top of the pendant cap.  
**Inside diameter of 1.5" thread**  
**Colour - Silver**  
**Material - Zinc plated steel**

**Part # STA** **Small Threaded Adaptor**  
 If using a pendant cap kit with a male thread, this adaptor marries up the Novattach mount to the pendant cap. Fast & easy, just spin onto the bottom of the Novattach then attach your camera and pendant cap.  
 Used on cameras with pendant caps that have a 1" male thread on top of the pendant cap.  
**Inside diameter of 1" thread**  
**Colour - Silver**  
**Material - Zinc plated steel**

**Part # EMT** **Powder Coated Aluminum Piping**  
 Prices are per foot. Sold in one foot increments.  
 We ship 1.5" OD aluminum pipe with all orders, but Novattach is compatible with UL approved 1.25" steel EMT conduit.  
 Aluminum is corrosion resistant, strong, lightweight and easy to cut. When ordering, please use colour codes listed below and indicate the lengths you want for each pole. For example a 4ft black pole would be EMT-B 4ft. Please specify lengths for all poles when ordering.  
**Colours - White (EMT-W), Black (EMT-B) and Silver (EMT-M)**

**Part # NAC** **Novattach Assembly Code**  
 Full assembly service for any of your Novattach parts. If you would like your various length Novattach products fully assembled, including any adaptors, then this all inclusive service is for you. Products are shipped fully assembled to your facility. All you have to do is run your patch cable and attach the hardware. Assembled kits are available in White, Black or Silver. Custom colours available upon request.  
 Just pick your parts, colours, pipe lengths and add adaptors and we do the rest. Price is for one assembled unit.
